Jeremy Tammik

MS in Mathematics and Physics at Philipps-Universitaet Marburg an
der Lahn
Basel

Summary

Live life, learn, love.

___

Experience

Autodesk
33 years

Consulting Analyst
May 2005 - Present (15 years 10 months)
Jeremy is a member of the AEC workgroup of the Autodesk Developer
Network ADN DevTech team, providing developer support, training,
conference presentations, and blogging on the Revit API.

He originally joined Autodesk in 1988 as the technology evangelist responsible
for European developer support. In this capacity, he wrote articles, consulted,
lectured on AutoCAD application programming techniques, and supported
AutoCAD application developers in Europe, the U.S., Australia, and Africa.
He was a co-founder of ADGE, the AutoCAD Developer Group Europe, and a
prolific author on AutoCAD application development. He left Autodesk in 1994
to work as an HVAC application developer, then rejoined the company in 2005.

Jeremy graduated in mathematics and physics at Marburg University in
Germany, worked as a teacher and translator of both computer and human
languages, then as a C++ programmer on early GUI and multitasking projects.
He is fluent in six European languages, vegetarian, has four kids, plays the
flute, likes reading, travelling, theatre improvisation, yoga, carpentry, loves
mountains, oceans, sports, music, dancing, and especially climbing. More...

Jeremy can be contacted by email, but please don't expect him to provide
support; if you need support for our products or APIs, please visit Autodesk's
support website, use our discussion groups or post a question via your reseller
or the Autodesk Developer Network website, if you're a member.
